DEAL SIGNAL · 29 SEP 2026

The territory split happens before Phase I.

EXECUTIVE TRANSACTION BRIEF

Hengrui and Novo divided control while HRS-1596's clinical evidence and produ

Asset: Once-weekly oral GLP-1/GIP dual receptor agonist (Phase I-ready)

UPFRONT CAPITAL

$300M

Cash payable at Q4 closing

POTENTIAL CEILING

UP TO $2.6B

Contingent milestones + royalties

TERRITORY SCOPE

GLOBAL

Ex-Greater-China & Taiwan

PHARMASIGNAL TAKE

Novo receives development, manufacturing and commercialisation control across the licensed territory

The key execution question is how evidence and product decisions will cross that boundary.

THE DEAL MAP

Hengrui Pharma

→ ex-Greater-China rights → Novo

ASSET & STAGE

HRS-1596 · Phase I-Ready

Oral GLP-1/GIP dual agonist with potential for once-weekly dosing. Hengrui holds China Phase I approval.

NOVO RESPONSIBILITIES

Develop, Manufacture, Commercialise

All three operating rights bundled together across the licensed worldwide territory.

TERRITORY EXCLUSIONS

Excludes Chinese mainland, Hong Kong, Macao & Taiwan

Hengrui retains rights in Greater China where it advances weight management & T2D trials.

COMMITTED VS CONTINGENT ECONOMICS

USD 300M Upfront · Up to USD 2.6B Potential Total

Balance contingent on development, regulatory and commercial gates, plus net sales royalties.

PHARMASIGNAL READ

A territory schedule is not an operating plan.

STRUCTURAL EXECUTION INTERFACE

- **Rights: clearly divided.**
  Territorial boundary is explicitly carved out at contract signing.
- **Control: bundled with Novo.**
  Development, manufacturing & commercialisation sit under one partner.
- **Interface: not disclosed.**
  Cross-territory data sharing and global CMC change rules remain undisclosed.

THE OPEN QUESTION FOR BD TEAMS

How will clinical evidence, safety reporting and CMC changes cross the bounda

Dose selection, safety reporting, formulation comparability and manufacturing changes will shape the same asset across both programmes lon

PHARMASIGNAL PRINCIPLE

> “A territorial carve-out works only when the rights boundary is matched by clear rules for the evidence and product decisions that cross it.”
